The laboratory samples were collected from the high-risk community members, returnees/passengers at mandatory quarantine centers, contacts of the confirmed cases, health facility visitors and suspects at isolation and treatment centers.

Considering the increase in transmission of COVID-19, the Ministry of Health and Ethiopian Public Health Institute would like the public to strictly adhere to all precaution measures. We need to be reminded that every single action we take determines the risk of contracting the virus. Therefore, we should;

- Maintain physical distancing
- Wash our hands with water and soap frequently
- Stay at home and avoid mass gatherings
- Cover our mouth and nose with face/cloth mask when going outdoors
